Planet Positive: Fun, Fun, Fun.

By Alan Strum

Until recently I was a Planet Positive virgin. And like my virginity, after the act, I was wondering why I had waited so long before attending my first event. It was fun, fun, fun! I met people from all sorts of different backgrounds, had great conversations, drank, ate and at the end of the

evening I did not want to go home. I really do have to congratulate Daniel Donnelly and David Menadue for making these evenings happen. A special thank you also goes to Planet Positive's new sponsor South Yarra Volkswagen whose financial support helps to make the evening possible.

So, like a person who has lost his virginity, I can't wait to do it again! Some of the feedback from the evening was that it was easy to meet people in an HIV positive safe space. The next Planet Positive will take place upstairs at Vibe Bar and Café at 123 Smith Street in Fitzroy on April 28 at 7.30pm.
